

New School Crossing Commands

Due to the new restrictions in regards to wearing masks, we wanted to let you know there will be changes to the way the school crossings will be operated.

It won't be possible for the Supervisors to use their whistles while wearing a mask, so going forward they will be using voice commands on the crossings. The instructions will be "WALK" and "STOP".

They have all been instructed to speak to each pedestrian and explain how it will be operated before anyone enters the crossing.
